

GOVERNMENT OF PAKISTAN
MINISTRY OF FINANCE, ECONOMIC AFFAIRS, STATISTICS AND REVENUE
(REVENUE DIVISION)

Islamabad, the 5th June, 2006.

NOTIFICATION
(CUSTOMS)

S.R.O. 565 (I)/2006.- In exercise of the powers conferred by section 19 of the Customs Act, 1969 (IV of 1969), and in suppression of Notification No. S.R.O. 565(I)/2005, dated the 6th June, 2005, the Federal Government is pleased to exempt raw materials, sub-components, components, sub-assemblies and assemblies, as are not manufactured locally, specified in column (3) of the Table below, imported for the manufacture of goods specified in column (2) of the said Table, from so much of customs-duty leviable under the First Schedule to the Customs Act, 1969 (IV of 1969), as are in excess of the rates specified in column (5) of that Table, subject to certain exclusion specified below, the special conditions as specified in column (6) of the Table and the following general conditions, namely: -

- (i) A sales tax registered importer-cum-manufacturer having suitable in-house facilities shall submit a complete list in the prescribed format [appended as Form-I] of his annual requirement of permissible items (inputs) he intends to import for the manufacture of goods mentioned in column (2) of the table to the Collector of Sales Tax and Federal Excise having jurisdiction or to any other organization or person as authorized by the Central Board of Revenue;
- (ii) the importer-cum-manufacturer shall file a request containing a declaration of input/ output ratios to the Collector of Sales Tax and Federal Excise or the authorized person. The Collector or the authorized person may accept the declaration of input output ratio as declared by the applicant and determine the annual requirement of inputs, without any physical verification. In case the Collector or authorized person is not satisfied with declared input output ratios of the items to be manufactured because of their being *prima-facie* not in accordance with the prevalent average of the relevant industry or for any other reason, he may, after allowing a reasonable provisional quantity, make a reference to the Engineering Development Board or IOCO or to any other recognized authority for final determination thereof. The collector or authorized person shall then determine the final annual quantitative entitlement of inputs and the applicant shall proceed to consume imported inputs in accordance with the input output ratios and quantities so determined;
- (iii) the clearance of inputs shall be allowed through one port or dry port only, however, for the liquid bulk cargo imported at Karachi, the facility of clearance from either port i.e. Port Qasim and Karachi Port shall be allowed subject to maintenance of centralized record of quota debiting at the port for which the Provisional or Final Certificate is issued;
- (iv) the authorized officer of Sales Tax Collectorate shall furnish all relevant information online to Customs Computerized System (PACCS) as per Form-II appended to this notification against a specific user ID and password obtained under section 155D of the Customs Act, 1969. In already computerized Collectorate/Customs stations where the PACCS is not yet operational, the Project Director or any other authorized person shall feed the requisite information in the PACCS on daily basis and on weekly basis of the data obtained from the stations which have not yet been computerized;
- (v) the importer-cum-manufacturer shall file Goods Declaration on the prescribed format and manner with complete details of authorization of imported inputs for clearance. The Collector of Customs on satisfaction of correct declaration shall allow clearance of imported inputs after obtaining post dated cheque for the differential amount of statutory tax and concessionary taxes.

- (vi) the importer-cum-manufacturer shall maintain records of the inputs and the goods manufactured from imported inputs in such form as may be prescribed by the Central Board of Revenue or required under any other law for the time being in force;
- (vii) the importer-cum-manufacturer shall communicate to the concerned Collector of Sales Tax and Collector of Customs in writing about the consumption of imported items within sixty days of consumption of goods. The post dated cheque shall be released or cancelled on receipt of written confirmation regarding consumption of goods by the importer-cum-manufacturer. In case of non-consumption within one year from the date of import, the importer shall pay the customs-duty and other taxes involved or obtain extension from the Collector of Sales Tax and Federal Excise under intimation to Collector of Customs giving plausible reasons for a reasonable period;
- (viii) the Collector of customs may, on its own or through the Collector of Sales Tax and Federal Excise or through any other department working under Revenue Division, whenever deemed necessary get the records of the importer-cum-manufacturer audited and may also get the stocks verified. In case it is found that the inputs have not been properly accounted for or consumed for the manufacture and supply of goods as prescribed, the Collector may initiate proceedings for the recovery of leviable customs-duty and other taxes besides penal action under the relevant provisions of the laws in force.
- (ix) The importer-cum-manufacturer may also get manufactured any of the item from the raw materials, sub-components, components, sub-assemblies or assemblies mentioned in column 3 of the Table below, to be used in manufacturing of goods mentioned in Column 2 of the Table below, from another manufacturer (vendor), duly registered with Sales Tax department, having suitable in-house facility. In such case,
 - (i) the vendor shall have a firm contract with the importer-cum-manufacturer;
 - (ii) the importer-cum-manufacturer may provide the imported raw materials, sub-components, components, sub-assemblies or assemblies mentioned in column (3) to the vendor;
 - (iii) the vendor shall not be entitled to import the raw materials, sub-components, components, sub-assemblies or assemblies under this SRO for manufacturing of goods to be supplied to the importer-cum-manufacturer;
 - (iv) the vendor after manufacturing the sub-components, components, sub-assemblies or assemblies supply them only to the importer-cum-manufacturer with whom he held a firm contract; and
 - (v) the vendor shall also maintain proper record of the raw materials, sub-components, components, sub-assemblies or assemblies consumed or utilized and goods supplied to the importer-cum-manufacturer.
- (x) Under circumstances of exceptional nature and for reasons to be recorded in writing, the Board may relax any of the conditions, if it is satisfied that such condition is detrimental to the *bonafide* purposes of importer-cum-manufacturer's business, subject to such surety or guarantee as it may deem appropriate to secure to ensure proper accountal and utilization of the imported goods:

Provided the mild steel bars, mild steel rods, mild steel wire rods and plastics shall not be entitled for exemption under this notification.

Explanation 1.- For the purpose of this notification the expression “not manufactured locally” shall mean the goods which are not included in the list of locally manufactured goods, specified in the relevant Customs General Order or declared as such by the Central Board of Revenue or Engineering Development Board.

Explanation 2.- The importers can simultaneously avail the statutory rate of duty on those items mentioned in the table imported as part of CKD/SKD kits which have statutory rates lower than the CKD/CBU rates under this notification.

TABLE

S.No.	Description of goods to be manufactured.	Description of raw materials, sub-components, components and assemblies.	Heading or sub-heading Nos.	Extent of exemption from customs duty in excess of rates given below.	Special conditions
(1)	(2)	(3)	(4)	(5)	(6)
		<u>Raw materials</u>			
1.	Agarbatti.		2917.3400	10% ad val.	Nil
2.	Air conditioners.	Diethyl phthlate.		5% ad val.	The in-house facility for air conditioner manufacturing shall include the following: - i) Charging machine ii) Condenser bending machine iii) Rear panel bending machine iv) Front panel bending machine v) Rear panel bending machine. vi) Halogen leak detector
		(1) Hot stamping foil.	3212.1000		
		(2) Deep draw cold rolled steel coils – of a thickness of 0.5mm or more but not exceeding 1mm.	7209.1790		
		(3) Cold rolled steel coils – of a thickness of less than 0.5mm.	7209.1890		
		(4) Electro galvanized steel sheet.	7210.3090		
		(5) Bars and rods of copper –nickel base alloys (cupro-nickel) or copper-nickel-zinc base alloys (nickel silver).	7407.2200		
		(6) Brazing rod (copper).	7407.2900		
		<u>Sub-components and Components.</u>		10% ad val.	
		(7) Compressor cover.	8415.9090		
		(8) Axial fan.	8414.5190		
		(9) Front panel grill.	8415.9090		
		(10) Service valve 2 way & 3 way.	8481.8000		
		(11) Terminal block.	8415.9090		
		(12) Single phase AC	8501.4090		

		motor upto 320 watts.			
	(13)	Remote control.	8415.9090		
	(14)	Plasma filter assembly.	8415.9090		
	(15)	Rubber pipe cut to size.	4009.1100		
	(16)	Compressor.	8414.3010	0% ad val.	
3	Deep-freezers/ chest cooler.	<u>Raw Materials.</u>		5% ad val.	The in-house facility for deep freezer/ chest cooler manufacturing shall include the following: - i) Sheet Metal Shop ii) Paint shop iii) Vacuum forming machine along with moulds iv) Foaming machine along with moulds, jigs and fixtures.
	(1)	Hot stamping foil.	3212.1000		
	(2)	Deep draw cold rolled steel coils – of a thickness of 0.5mm or more but not exceeding 1mm.	7209.1790		
	(3)	Cold rolled steel coils – of a thickness of less than 0.5mm.	7209.1890		
	(4)	Electro galvanized steel sheet.	7210.3090		
	(5)	Bars and rods of copper –nickel base alloys (cupro-nickel) or copper-nickel-zinc base alloys (nickel silver).	7407.2200		
	(6)	Brazing rod (copper).	7407.2900		
	(7)	Aluminum sheet embossed or patterned.	7606.9290		
	(8)	Anti fungal soft PVC compound according to DIN 53 739.	3904.2200		
		<u>Sub-components and Components.</u>		10% ad val.	
	(9)	Glass door.	8418.9990		
	(10)	Light switch.	8535.3010		
	(11)	Lamps of a power not exceeding 20 watts.	8539.2200		
	(12)	Terminal blocks.	8418.9990		
	(13)	Single phase AC motor upto 320 watts.	8501.4090		
	(14)	Compressor.	8414.3010	0% ad val.	

4. Refrigerators/
Visicoolers.

Raw Materials.

5% ad val.

The in-house facility for refrigerator/visicooler manufacturing shall include the following: -
i) Sheet Metal Shop
ii) Paint shop
iii) Vacuum forming machine along with moulds
iv) Foaming machine along with moulds, jigs and fixtures.

(1)	Hot stamping foil.	3212.1000
(2)	Deep draw Cold rolled steel coils – of a thickness of 0.5mm or more but not exceeding 1mm.	7209.1790
(3)	Cold rolled steel coils – of a thickness of less than 0.5mm.	7209.1890
(4)	Electro galvanized steel sheet.	7210.3090
(5)	Bars and rods of copper –nickel base alloys (cupro-nickel) or copper-nickel-zinc base alloys (nickel silver).	7407.2200
(6)	Brazing rod (copper).	7407.2900
(7)	VCM sheet.	7210.7090
(8)	Anti fungal soft PVC compound according to DIN 53 739.	3904.2200

Sub-components and Components
